Just starting to watch hearing... but fyi below from ocir

Senator Boxer to Mr. Evan P. Hansen, President, Down Stream Strategies: What were the results of the in home tap water testing your company conducted in WV? Did you find the chemical leaked by Freedom Industries even after the lines were flushed?

Mr. Hansen: Yes, we continued to find polluted tap water being delivered to people's homes. Four out of 10 homes we tested, 40%, still had the chemical present even after our company flushed the lines again.

The answer was a little more elaborate but this was the bottom line.
